## About the Report Card

**State and federal laws require public school districts to release report cards to the public each year.**

The federal Every Student Succeeds Act requires that states annually assign schools a summative designation that meaningfully differentiates school performance based on multiple performance measures. All states were offered a waiver of this requirement for school year 2020-2021 due to the impact of COVID-19. For more information about Illinois' accountability system please visit [www.isbe.net/summative](http://www.isbe.net/summative).

For additional information, refer to the [Public Business Rules for 2021 Report Card Metrics](#) and the [2021 Glossary of Terms](#).

## About the data

Academic progress data includes information regarding assessments, such as student participation rates, proficiency rates, and mean student growth percentile. Other information regarding academics may include certain touchstones, such as eighth-graders passing Algebra 1, graduation rate, and various advanced coursework information. Academic progress often is disaggregated further into demographic student groups.

## IAR

### What is it?

This shows the percentage of students scoring at each of the Performance Levels for the Illinois Assessment of Readiness (IAR). Each Performance Level is a broad, categorical level defined by a student's overall scale score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scale scores for the assessment. There are five Performance Levels for IAR assessments:

- Level 1: Did not yet meet expectations
- Level 2: Partially met expectations
- Level 3: Approached expectations
- Level 4: Met expectations
- Level 5: Exceeded expectations

Students performing at levels 4 and 5 met or exceeded expectations, have demonstrated readiness for the next grade level/course and, ultimately, are on track for college and careers. Performance Level Descriptors describe the knowledge, skills, and practices that students should know and be able to demonstrate at each Performance Level in each content area (English language arts [ELA] and mathematics) and at each grade level/course.

## SAT

### What is it?

This shows the percentage and number of 11th-graders scoring at each of the performance levels for the SAT. Each Performance Level is a broad, categorical level defined by a student's score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scores for the assessment. There are four Performance Levels for the SAT:

- Level 1 - Partially Meets Standards: The student has only partially met standards and demonstrates a minimal understanding of the knowledge and skills needed relative to the Illinois Learning Standards.
  - Level 2 - Approaching Standards: The student is approaching the proficiency level and demonstrates an incomplete understanding of the knowledge and skills needed relative to the Illinois Learning Standards.
  - Level 3 - Meets Standards: The student has met the proficiency level and demonstrates adequate understanding of the knowledge and skills needed relative to the Illinois Learning Standards.

## DLM

### What is it?

This shows the percentage and number of students scoring at each of the performance levels for the Dynamic Learning Maps Alternative Assessment (DLM-AA) for students with cognitive disabilities. DLM-AA results are not based on raw or scale scores; all data is based on diagnostic classification modeling. Standard setting allows us to look at patterns of number of linkage levels mastered across the tested Essential Elements, to which we can apply cut points to define categories of student performance. This performance are reported using the four Performance Levels approved by the consortium:

- Level 1 – Entry: The student demonstrates emerging understanding of and ability to apply content knowledge and skills represented by the Essential Elements.
  - Level 2 – Foundational: The student’s understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements is approaching the target.
  - Level 3 – Satisfactory: The student’s understanding of and ability to apply content knowledge and skills represented by the Essential Elements is at target.
  - Level 4 – Mastery: The student demonstrates advanced understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements.

## ISA

### What is it?

This shows the percentage and number of students scoring at each of the Performance Levels for the Illinois Science Assessment (ISA). The ISA performance levels indicate students' understanding of the Illinois Learning Standards in science for their grade level. There are four Performance Levels for the ISA:

- Level 1 – Emerging: Work at this level shows a partial application of knowledge and skills. It is superficial (lacks depth), fragmented, or incomplete and needs considerable development. Work contains errors or omissions.
  - Level 2 – Developing: Work at this level does not meet the standard. It shows basic, but inconsistent, application of knowledge and skills. Minor errors or omissions detract from the overall quality. Work needs further development.
  - Level 3 – Proficient: Work at this level meets the standard. It is acceptable work that demonstrates application of essential knowledge and skills. Minor errors or omissions do not detract from the overall quality.
  - Level 4 – Exemplary: Work at this level is of exceptional quality. It is both thorough and accurate. It exceeds the standard. It shows a sophisticated application of knowledge and skills.

## Proficiency

### What is it?

The federal Every Student Succeeds Act (ESSA) requires states to assess their learning standards for ELA, math, and science. Each state may also have a general assessment for the majority of its students and an alternate assessment for the 1 percent of students with the most significant cognitive disabilities. The All Test Proficiency measure is the proficiency rate for students combining all tests. A rate is calculated for ELA, math, and science.

## Growth Percentile – IAR

### What is it?

This shows the growth of students relative to other students in the state with a similar scale score in the preceding school year(s). If the data is available, the Student Growth Percentile (SGP) takes up to two prior scores. The school, district, and state measure is the sum of the students' SGP divided by the number of students with an SGP. Illinois uses SGPs to calculate growth. Proficiency shows whether or not students have mastered a common, high standard; whereas, growth recognizes progress toward and beyond the standard, no matter where each student started. Data show that students of all races, income levels, languages, and disability statutes demonstrate growth across the full range. Our rigorous assessments ensure there is more than enough room to measure the growth of even Illinois' highest achievers.

## Participation Rate

### What is it?

This shows the percentage and number of students participating in standardized testing, by subject and applicable test. Some students may take the test for one subject but not another. According to Illinois School Code, all students enrolled in public schools are required to participate in the state assessment or an alternate form of the assessment. Students who participate but for various reasons do not complete the testing process (e.g., illness) are still counted as having participated.

## Career and Technical Education

### What is it?

Career and Technical Education (CTE) programs in Illinois provide instruction for careers in high-wage, high-skill, and in-demand occupations.

Four year graduation rate: This shows the percentage of CTE concentrators who graduate high school as measured by the four-year adjusted cohort graduation rate, both as a whole and broken down by student group.

Extended graduation rate: This shows the percentage of CTE concentrators who graduate high school as measured by the extended-year adjusted graduation rate as defined in such Section 8101 (within six years of entering high school), both as a whole and broken down by student group.

ELA Proficiency: This shows CTE concentrators' proficiency in the challenging state academic standards adopted by the state under Section 111(b)(1) of the ESEA of 1965, as measured by the academic assessments in reading/language arts as described in Section 1111(b)(2) of such Act, both as a whole and broken down by student group.

Math Proficiency: This shows CTE concentrators' proficiency in the challenging state academic standards adopted by the state under Section 111(b)(1) of the ESEA of 1965, as measured by the academic assessments in mathematics as described in Section 1111(b)(2) of such Act, both as a whole and broken down by student group.

Science Proficiency: This shows CTE concentrators' proficiency in the challenging state academic standards adopted by the state under Section 111(b)(1) of the ESEA of 1965, as measured by the academic assessments in science as described in Section 1111(b)(2) of such Act, both as a whole and broken down by student group.

Postsecondary placement rate: This shows the percentage of CTE concentrators who, in the second quarter after exiting from secondary education, are in post secondary education or advanced training, military service, or a service program that receives assistance under Title I of the National and Community Service Act of 1990 (42 U.S.C. 12511 et seq.), are volunteers as described in Section 5(a) of the Peace Corps Act (22 U.S.C. 2504(a)), or are employed, both as a whole and broken down by student group.

Nontraditional program enrollment rate: This shows the percentage of CTE concentrators in CTE programs and programs of study that lead to fields in which their gender is underrepresented, both as a whole and broken down by student group.

Attained postsecondary credits rate: This shows the percentage of CTE concentrators graduating from high school having attained post secondary credits in the relevant career and technical education program or program of study earned through a dual or concurrent enrollment or another credit transfer agreement, both as a whole and broken down by student group.

Work-based learning rate: This shows the percentage of CTE concentrators graduating from high school having participated in work-based learning, both as a whole and broken down by student group.

Total Count of CTE Participants: This shows the total count of CTE participants, both as a whole and broken down by student group. Subsequent sections throughout the remainder of this section represent subtotals within each of the career cluster program areas available statewide.

## High School Graduation Rate

### What is it?

This shows the percentage of graduating students who entered ninth grade for the first time four, five, or six years prior to the year being reported. Graduation Rate is calculated based on ESSA High School Graduation Rate guidance found [here](#). Students are reported at the school where students attend (home school). The cohort is based on the number of students who enter Grade 9 for the first time, adjusted by adding into the cohort any student who transfers in later during Grade 9 or during the next three years and subtracting any student from the cohort who transfers out, emigrates to another country, transfers to a prison or juvenile facility, or dies during that same period.

## Early Learning

### What is it?

This shows the percentage of entering kindergartners rated on their readiness. The Kindergarten Individual Development Survey (KIDS) was implemented statewide in Illinois in the 2017-18 school year. KIDS is an observational assessment tool designed to help teachers, administrators, families, and policymakers better understand the development of children in kindergarten. ISBE requires kindergarten teachers to collect observations beginning on the first day of in-person instruction on a minimum of 14 required measures, which are from three key developmental areas. This subset of 14 measures provides a developmental indicator for a group of students (class, school, district, state) in kindergarten.

## School Level Finances

### What is it?

Average spending per student at this school, as collected through the unaudited ESSA Site-Based Expenditure Report. Districts report the actual dollars spent in the previous school year, including site-level costs (like school staff) and districtwide centralized costs allocated to each individual school (like transportation and central office staff), divided by the school's enrollment. Districts also report whether federal or state/local sources funded the spending.

## District Finances

### What is it?

The Annual Financial Report (AFR) for a district is the final financial statement for the fiscal year of a Local Education Agency (LEA) after it has been audited by a qualified auditor. Each district is required to have an annual audit completed by a qualified and licensed auditing firm. The AFR is completed by the auditor and is submitted to Illinois State Board of Education. This displays the Revenue by Source, Expenditure by Function, Expenditure by Fund, and other financial indicators.

## Student Enrollment

### What is it?

This shows the total percentage and number of students enrolled in this school as of October 1 of the current school year. District-level enrollment includes students attending a school in the district and students placed in private schools by the district and funded by the district. The student enrollment excludes the following:

- Students given vouchers to attend private schools
- Students placed by their parents in private schools whose tuition is paid for by their parents, but who receive special education services from their home district

## Students With IEPs

### What is it?

This shows the percentage of students who receive special education and related services in accordance with their Individualized Education Programs (IEPs). Each student who is found eligible for special education and related services receives an IEP that specifies supplemental services, accommodations, modifications, and supports to enable the student to be involved in, and make progress in, the general education curriculum. The state collects demographic information on all students, including racial and ethnic diversity. There are 14 disability areas, ranging from autism to visual impairment. Schools follow a process mandated by law in identifying students' disabilities and then developing IEPs.

## Educational Environments for Students with IEPs

### What is it?

This shows the percentage of students with IEPs and the classification of their educational environment. Special education law requires that students with IEPs be placed to the maximum extent appropriate with children who are not disabled. This means including students with IEPs in general classrooms, the least restrictive environment, as much as possible. The IEP team, which includes parents, bases placement decisions on the best ways to meet the identified needs of a student. The percentage of time spent in general classrooms will vary according to the needs of individual students, who may require supplemental services to achieve their learning goals. The percentage of students with IEPs whose educational environment was classified into one of four settings for students age 6 to 21 is as follows:

- 80 percent or more of time in a general classroom with their non-disabled peers
- Less than 40 percent of time in a general classroom
- 40-79 percent of time in a general classroom
- In a separate facility

## Early Childhood (EC) Educational Environments (ages 3-5)

### What is it?

This shows the percentage of students with IEPs and the classification of their educational environment. Special education law requires that students with IEPs be placed to the maximum extent appropriate with children who are not disabled. This means including students with IEPs in general classrooms, the least restrictive environment, as much as possible. The IEP team, which includes parents, bases placement decisions on the best ways to meet the identified needs of a student. The percentage of time spent in general classrooms will vary according to the needs of individual students, who may require supplemental services to achieve their learning goals. For pre-school students age 3-5 with IEPs, educational environments are classified in five ways:

- Receives the majority of special education services inside an early childhood program
- Enrolled in a regular early childhood program but the majority of special education services outside the early childhood program
- Enrolled in special education class or facility
- At home
- In the care of a service provider

## State Performance Plan Indicators For Students With IEPs

### What is it?

The Individuals with Disabilities Education Act (IDEA 2004) requires states to develop and submit a State Performance Plan (SPP) to the Office of Special Education Programs at the U.S. Department of Education. The SPP is designed to evaluate the state's efforts to implement the requirements and purposes of IDEA and describe how the state will improve its implementation. The plan consists of several priority areas with specific indicators defined for each area. Measurable and rigorous targets are defined for each indicator to show progress throughout the life of the SPP. States are required to publicly report on SPP Indicators 1-14. A link to Part B of the Illinois State Performance Plan can be found at <https://www.isbe.net/Pages/State-Performance-Plan-Data-and-Accountability.aspx>

## Student Mobility Rate

### What is it?

A school's student mobility rate is the percentage of students who experienced at least one transfer in or out of the school between the first school day of October and the last school day of the year. Graduates are not included.

## Chronic Absenteeism Rate

### What is it?

This shows the percentage of students who miss 10 percent or more of school days per year either with or without a valid excuse. Illinois law defines “chronic absentee” as a student who misses 10 percent of school days within an academic year with or without a valid excuse. That’s 18 days of an average 180-day school year. Excused absences include illness, suspension, need to care for a family member, etc. Students need daily instruction in order to succeed. Chronic absentees are at risk of academic and social problems.

## Dropout Rate

### What is it?

This shows the percentage of students who are removed from the local enrollment roster before the end of a school term. Dropouts include students in Grades 9-12 whose names have been removed for any reason, including moved not known to be continuing, transfer to GED-program, and aged out. The percentage does not include death, extended illness, graduation/completion of a program of studies, transfer to another public/private/home school, or expulsion.

## About the data

Summative designations are ratings that help families and communities understand how well schools are serving all students. Illinois has five summative designations: Exemplary School, Commendable School, Targeted School, Comprehensive School, and Intensive School. Targeted Schools and Comprehensive Schools receive additional funding and supports to build local capacity and improve student outcomes. Multiple measures of school performance and growth determine a school's annual\* summative designation.

\* Federal waivers issued in 2020 and 2021 impacted accountability. For more information, see [www.isbe.net/summative](http://www.isbe.net/summative).

## School Improvement Funds

### What is it?

Funds authorized under Title I, Part A, Section 1003 School Improvement of ESSA are allocated on a formula basis to LEAs serving the state's lowest-performing schools that are implementing comprehensive support and improvement activities or the state's underperforming schools that are implementing targeted support and improvement activities. School Improvement funds are disbursed by the Illinois State Board of Education to eligible LEAs via the IL-EMPOWER Grant to assist schools in improvement status develop, implement, and monitor effective School Improvement Plans. The purpose of the funding is to build the capacity of school leaders to implement effective school improvement practices, and the goal is to enable schools in improvement status to improve student achievement and performance outcomes and to exit status. LEAs use school improvement funding for the following types of planning and implementation activities:

- Contracting for professional services from state-approved learning partners.
- Conducting school-level needs assessments.
- Analyzing data.
- Identifying resource inequities.
- Researching and implementing evidence-based interventions.
- Purchasing standards-aligned curriculum and materials.
- Purchasing and administering local assessments for progress monitoring.
- Paying school personnel to collaborate and to develop, implement, and monitor School Improvement Plans.

### What is it?

The table below represents the percentage of administrators defined as “novice” - having less than 2 full-time equivalent years of combined public school teaching experience. The display summarizes the rate within this district and across the state and highlights the rates across all high-poverty and low-poverty schools in the district (as applicable).

## About the data

The Civil Rights Data Collection (CRDC) is a biennial (i.e., every other school year) survey of public schools that has been required by the U.S. Department of Education Office for Civil Rights since 1968. The CRDC collects data on leading civil rights indicators related to access and barriers to educational opportunity from early childhood through Grade 12. The CRDC collects data from public Local Educational Agencies and schools, including juvenile facilities, charter schools, alternative schools, and schools serving only students with disabilities.

## Student Environment

### What is it?

Data from the Civil Rights Data Collection (CRDC) comes directly from the U.S. Department of Education (ED). ED collects the data directly from ISBE and school districts and releases the information on a two- to three-year delay. ISBE also collects some of these data elements from districts and reports the results in the year it was collected. Current year data for in-school suspensions, out-of-school suspensions, and expulsions is reported by ISBE in a separate report on [www.isbe.net](http://www.isbe.net). Current year data for chronic absenteeism can be found in the Students section of the Report Card. Please note data may not match due to differences in data collection methods.

## About the data

The National Assessment of Educational Progress (NAEP), also known as "The Nation's Report Card," is the only nationally representative and continuing assessment that has been conducted periodically in reading, mathematics, science, writing, U.S. history, civics, geography, and the arts. NAEP does not provide scores for individual students or schools; instead, it offers results regarding subject-matter achievement, instructional experiences, and school environment for populations of students (e.g., fourth-graders) and subgroups of those populations (e.g., female students, Hispanic students). NAEP results are based on a sample of student populations of interest. National NAEP reports information for the nation and specific geographic regions of the country. It includes students drawn from both public and nonpublic schools and reports results for student achievement at Grades 4, 8, and 12.
